

Big Enough to Deliver, Small Enough to Care

Backyards have become our main entertaining space, especially during the summer festive season.

Diligent design, planning and permitting is required to maximise your entertaining space while performing to your family's requirements.

Grand Patios are market leaders in the patio/alfresco construction industry and will create aesthetically-pleasing designs that seamlessly blend in with your existing home.

Grand Patios pride themselves on delivering a quality design and achieve success by exceeding client expectations.

Owners and active directors of Grand Patios John and Neil would like to give a big thank you to the Baldvis and Rockingham and Mandurah community.

"Grand Patios growth over the last six years into a dynamic total solution patio company has been the result of hard work and the support of our local Baldvis and Rockingham client referral base- where we first started," they said.

Grand Patio's location may have changed to Dixon Road, Rockingham but the company ethics of always delivering a quality design, product and service have not.

The Grand Patios team includes admin manager Michelle Cooper, design consultant Naas Hartzenberg, general manager John Copper, surveyor and production manager/scheduler Neil Harris, design consultant Daniel Smith, shire officer and admin officer Catherine Seery.

The strength of any construction company to deliver on a project is reliant on the staff expertise, service communication and experience.

Grand Patios understands this by only having the industry's best.

Prepare your area now for this summer and festive season before it gets too late. Grand Patios is your smart choice in outdoor living turnkey solutions.

Grand Patios has earned glowing reviews due to design experience, use of quality products and overall understanding of the construction industry
